Strikemasters Over Sydney*

**OK, not really Sydney. But close enough to Sydney.*

Bomb a secret airbase hidden in the mountains.
Escape enemy fire. Engage in air combat.
The missions are a fantasy. The excitement is real.

THE BAC STRIKEMASTER

The British Aircraft Corporation Strikemaster 167 is a jet fighter/bomber with a top speed of 900 kph. Designed for reliability and safety, the Strikemaster can accelerate from 0 to 600 kph in less than 20 seconds. The jet is powered by a Rolls Royce Viper jet engine producing 3,410 lbs. of thrust. It can climb to 37,000 feet.

The Strikemaster has flown in a variety of air forces, including the air forces of Great Britain, Singapore, New Zealand, Kenya and Saudi Arabia. The fighter features side by side seating, allowing for easy communication between you and your pilot during each mission.

THE JET FACILITY

Flights depart from Bathurst Airport, located approximately three hours by car from Sydney. We will be happy to arrange convenient air transportation from Sydney to Bathurst for you. (Incredible jet fighter maneuvers like those performed in the Strikemaster cannot safely be completed close to a major city.)

SAMPLE MISSION PROFILES

A variety of flight profiles are available. You tell us what you want to do and we will work with you to make each flight the flight of your dreams. Here are some of the options:

- **Air Combat Mission**

Participate in three air combat engagements, learning the dynamics of a flat engagement, then a vertical engagement and finally a three dimensional dog fight. Typical flying time is thirty minutes.

- **Low Level Strike Attack Mission**

Descend to 500 ft above the ground for a low-level run-in to the target, flying up and over ridges and into valleys to avoid radar and visual detection. Pop and roll in on the target for simulated weapons delivery. Dive down then pull straight into the vertical to rocket upward and perform high "g" aerobatics. Typical flight time is thirty minutes.

Strikemasters Over Sydney*

**OK, not really Sydney. But close enough to Sydney.*

"A High Speed Adventure You'll Be Telling Your Mates About for Years to Come"

Fitness / Experience Required

No specific level of fitness is required and no flying experience is required. You should however be in reasonably good health. People with heart conditions or epilepsy cannot fly. Flying with a hangover is a really bad idea.

Preparing for Your Missions

- Get a good night's sleep the evening before and avoid too much alcohol.
- Eat normal, healthy meals, including breakfast or lunch.
- Avoid overeating, fruit juices and excessive fluid intake for a few hours before your mission.
- You can wear prescription eyeglasses. Sunglasses are not necessary because the helmets have visors.
- Wear comfortable clothing suitable for the outside temperature and rubber soled footwear.
- Remember a warm jacket if it's a cool day.

Hotel Information

We recommend Sydney's five-star Observatory Hotel, located in the Rocks District. The hotel is conveniently located near Sydney's magnificent waterfront. Your personal travel agent can make arrangements for you, however if you need our assistance, we'll be happy to help.

Sample Strikemaster Adventure

Let us customize a jet fighter adventure for you.

DAY ONE

- 11:00hrs** A driver will be waiting for you at the front of your Sydney hotel to take you to Bankstown Airport.
- 12:00hrs** Meet your pilot at Bankstown Hangar for flight to Bathurst Operations field.
