

THE GREAT SAN FRANCISCO ADVENTURE

an incredible way to see one of the world's most beautiful cities

Six Friends. Eight Hours. Four Adventures.

Sure, you could take a ferry, ride a cable car and walk around Fisherman's Wharf like every other tourist. But wouldn't you rather have an adventure like this?

- 10:00 A limo arrives to pick up you and the others. You'll ride in style to where a helicopter is waiting to take you on an incredible flight over the city.
- 11:10 After the flight, you're taken to pick up your GoCar. You'll spend two hours driving around San Francisco's famous streets in a special GPS-powered car. Think of it as an insider's tour of the city given by a tiny talking car.
- 1:15 Even adventurers need food, so we'll take you to a great restaurant for lunch.
- 2:30 Forget your afternoon nap. After lunch, you'll ride by limo to where your kayak awaits. You'll go fishing for baseballs outside the Giants' Pac Bell Park. That's right. Baseballs. Like the ones hit by San Francisco's famous slugger.
- 4:20 You always wanted to run off to join the circus, right? Your limo driver will stop at San Francisco's Circus School where you'll get a quick lesson on the 30 ft trapeze. Learn to do a backflip or better yet....perform a mid-air transfer. (That's where you hope the other guy on the other trapeze will catch you.)
- 5:35 Whew! You've now seen San Francisco by helicopter, miniature car, kayak and trapeze. You probably need a drink. Toast to the end of a great day at Twin Peaks, the highest spot in the city. Our limo driver will have you "home" by 6:15 pm. The day might not last forever but your memories of San Francisco certainly will!

Cost: \$7200 for up to six people

Includes limo transfers, activities, lunch & guide services.

(We can accommodate groups of all sizes. Call for custom pricing for your bunch.)
