0930-1200: Introduction to Tri-Core & Instructors, understanding of basic close quarter battle (CQB) tactics, doctrine and background.

1200-1300: Lunch

1300-1400: Safety Brief & Gear Issue, to include proper wearing of weapon and equipment.

1400-1730: Fundamentals of CQB and small arms tactics, movement, engaging adversary and team tactics.

1730-1800: Transportation to Lodging

DAY TWO

0900-0930: Transport to Facility

0930-1200: Training & Preparation

1200-1300: Lunch

1300-1600: Intel. Brief, Plan & Conduct Tactical Assault.

1600-1730: After Action Review

1730-1800: Transportation to Lodging

*Price: \$2750 per person**

*(*based on 4 to 8 Warriors)*

Custom programs for larger groups also available.

TRAINING NOTES

- You will be issued a t-shirt and basic duty uniform and provided with necessary training and safety equipment.
- Training open to those 16+ with parent permission and presence during event.
- You must be in reasonably good health and sign a Release of Liability prior to participation.
- The nearest major airport to the training facility is in Sacramento, CA, airport code SMF. San Francisco, Oakland and San Jose are all less than two hours away.
- Lodging is not included. We will provide transfers from a designated hotel to the training center.

TACTICAL OPS (SWAT 101)

A SWAT (Special Weapons And Tactics) team is an elite paramilitary Special Operations tactical unit in American and some international law enforcement departments. They are trained to perform high-risk operations that fall outside of the abilities of regular officers. Their duties include performing hostage rescues and counter-terrorism operations, serving high risk arrest and search warrants, subduing barricaded suspects, and engaging heavily-armed criminals.

- Wikipedia

Gun shots have been fired at the local high school. Your team is first on the scene.

There's a bank robbery in process. An unknown number of suspects have barricaded themselves inside the bank and are holding bank employees and customers hostage. It's up to you and your team to gain access to the bank, eliminate the threat and rescue the hostages.

Terrorists armed with assault rifles and rocket propelled grenades have broken into a government facility to steal a new biological weapon. You and your team must fight your way into the facility, stop the terrorists and secure the Bio Toxin.

Whatever the scenario, it's up to you to stop the threat and save the day, using the skills you've been taught by our team of pros.

WHAT IS AIRSOFT?

Airsoft was developed in Japan in the late 1970s to provide an alternative for gun hobbyists because local laws prevented individuals from privately owning firearms. There are three kinds of airsoft guns: automatic electric guns powered by rechargeable batteries, gas powered guns powered by gas canister and springers, which are single shot weapons that must be cocked. They shoot small plastic BBs or shells that are larger than traditional BB pellets. Because many airsoft weapons look nearly identical to their real-life lethal versions, several US States closely regulate where and by whom they can be used.
